

PRINCETON
TERRACE CLUB

Terrace Club Report to the PPF
April 21, 2016

Community Outreach

- Terrace maintains three community service co-chairs, responsible for organizing Truckfest on the club's behalf and coordinating community service projects within the membership
- Many Terrace members volunteer their time as prison tutors, English teachers, organizers, and activists, both in the Princeton area and in nearby Trenton, Newark, and NYC.
- Terrace continues to be the only club on the street to offer live music on a bi-weekly basis, open and free of charge for the whole University community

Education/Career Development

- The Terrace Alumni Relations Committee is in the process of organizing a Terrace mentorship program, whereby graduated Terrans in various fields will help juniors and seniors navigate the job search process
- Terrace serves as an educational/social hub for many of its members, who use it as a study space and take advantage of our wi-fi, printing and scanning abilities, and comfortable accommodations

Capital Improvements

- Terrace participated in the University's upgrade of the Street's wi-fi capabilities with great success, and the internet at the club is now faster than ever
- We were the beneficiaries of an abandoned science experiment this fall, adding a discarded "thermoheliodome" to our backyard as an additional picnic/shade spot
- Progress has been made in the last year in upgrading Terrace's plumbing
- Terrace will undergo a planned renovation in 5-10 years to better accommodate its larger membership and add a multi-use performance space, which would be available for member use when not hosting concerts
