Princeton Prospect Foundation Report

February 27, 2020

Anna Nguyen, Undergraduate Vice President

Club Life

Charter continues to be a warm and inviting space for current and new members, and given our recent rise in membership, Charter has become increasingly vibrant as well. Academically, members study together in the library (or any quiet corner of the club for that matter) and we host initiatives such as Thesis Tuesdays and Junior Independent Work Wednesdays. We have prioritized mental health initiatives such as Self-Care Nights, Study Breaks, and Moonlight Yoga as well. We have events catering to diverse interests, from Intramural Sports to Poker Mondays and Super Smash Bros Tournaments. Our social calendar includes weekly Study Breaks, Intramural Games and Tournaments, monthly Semiformals, and House Parties. With the recent addition of 120+ Sophomore members pursuing numerous different concentrations and certificates allowing for intellectual conversations and debates. Additionally, our current membership is involved in news organizations, sports teams, dance groups, volunteer committees, USG, and numerous other student organizations which has resulted in a diverse club environment.

Technology

Our computer cluster consists of six multi-monitor computers and a printer regularly maintained by our Tech Chair. We have invested in a shared club Chromebook to stream music at our social events and to stream political debates, reality shows, and sports games at study breaks for the membership. Our incoming Gear Chair and Tech Chair will also work together to create a gear website for members and alumni.

Service and Sustainability

Charter is increasing the membership's awareness of their environmental impact. Charter is still teamed up with Terracycle through a Solo cup initiative to recycle cups at our Friday night and

Member's Events. We have encouraged the membership to use glass cups and mugs instead of paper and plastic cups. We have also limited the use of plastic cutlery and styrofoam plates at regular dinners to reduce plastic waste. Charter plans to look into composting as well. We are looking forward to our yearly Auction Semiformal event which integrates the Sophomores into Charter as well as raises funds which we donate to charity. Last year we donated money to needy children.
