

Princeton Prospect Foundation Report

Terrace F. Club

Presented: 23 February 2023

I. House Improvements

- The food area now has new ceramic tile flooring.
- The pool table has been repaired, allowing the great sport of Balls to be played with as much gusto as it requires.
- The green house has also been fixed so that it is now functional and vegetation is once again able to thrive.

II. Community Engagement

- We are hosting students and chaperones from the Project Rousseau organization during their trip around Princeton.
- We have started donating leftover food to the Share My Meals organization which passes on dinners to 4-6 homeless families a day.
- We have planned a trash-pickup day inviting the Princeton community to join us with picking up any trash left along the side of the road. We ended up getting other eating clubs involved with the promotion and execution of the event.

- Starting in the summer, the house plans to open its doors to the community at least once a week for yoga, led by a certified instructor.

III. Sustainability

- We continue to compost and recycle.
- We continue to serve Fourth Course, an aptly named fourth course of the day at 10:30 PM, in which members reuse dinner leftovers to cook a new meal. The practice significantly reduces Terrace's daily food waste.
- We continue to serve beverages exclusively in washable tumblers on open nights, producing zero plastic waste by the end of each night.
- We recently started piloting the sale of new reusable Tumblers that members can buy in order to replace using the throw-away coffee to-go cups.
- The Greenhouse being fixed has allowed for us to eat our own freshly grown herbs and vegetables.
- Any leftover food from dinner is donated to the Share My Meals organization which then passes on the dinner to 16-24 homeless people, or 4-6 families per day.

Terrace would like to offer many kind thanks to the Princeton Prospect Foundation for all they have done and continue to do, and we would also like to thank the reader for their time. We at Terrace hope to both follow in the great footsteps of those who have served before us and to forge new paths with love and generosity. It is a privilege to serve this incredible community.
